

# Request for urgent analysis of water samples

This form is to be used when requesting urgent analysis of a water sample.

## Procedure

1. Ring the appropriate Laboratory contact to discuss sample receipt and reporting arrangements outside of business hours.

For samples requiring microbiological analysis, contact the NSW Health Pathology (NSWHP) Westmead – Core Microbiology Laboratory. If unanswered, ring the Section Manager of the Core Microbiology Laboratory.

For samples requiring chemical analysis, ring the Water Chemistry Laboratories at FASS. If unanswered, ring the Operations Director, Forensic and Environmental Toxicology, FASS.

2. Fill out this request form.
3. Obtain authorisation for this request from the Public Health Unit Director or Delegate.

(The delegate may be an Acting Director, Public Health Unit Environmental Health Officer or a Public Health Officer appointed under Section 121 of the Public Health Act 2010, Chief Health Officer, Director Health Protection, Director Environmental Health or an officer of the Water Unit).

4. Email the form to the appropriate Laboratory.
5. Submit a hard copy of this form with the samples, including details of sampling dates and times.

Consignments requiring only microbiological analysis should be sent to the NSWHP Westmead – Microbiology laboratory.

Consignments requiring only chemistry analysis should be sent to NSWHP FASS Stores.

Consignments with both microbiology and chemistry samples should be sent to the NSWHP Westmead – Microbiology laboratory.
