

# Addresses for water samples consigned to NSW Health Pathology (NSWHP)

For samples sent to NSWHP – Westmead and NSWHP – FASS  
Lidcombe

## Address templates

These templates are for use by water utility staff and NSW Health staff when consigning samples to NSWHP-Westmead Microbiology Laboratory and NSWHP – FASS Science Centre Lidcombe.

They may be printed or copied and attached to insulated coolers containing water samples consigned to NSWHP for analysis.

### For consignments with water samples for microbiological analysis only:

Use the “Urgent Water Microbiology Samples” address label.

### For consignments with water samples for chemical analysis only:

This includes chemistry Drinking Water Monitoring Program samples and samples for pesticides, disinfection by-products, cyanobacterial toxins, and total organic carbon analyses.

This label can also be used for non-water Public Health investigation samples submitted for chemistry testing, for example lead in paint or soil.

### For consignments containing both samples for microbiological analysis and chemical analysis:

Use the “Urgent Water Microbiology & Chemistry Samples” address label.

# **URGENT WATER MICROBIOLOGY SAMPLES**

Delivery Address

**NSW Health Pathology Westmead –  
Microbiology  
Central Specimen Reception (CSR)  
Level 2, Block I, Institute Road  
WESTMEAD NSW 2145**

After hours number: 0419 215 490

**FRAGILE**

# **URGENT WATER CHEMISTRY SAMPLES**

Delivery Address

**Forensic & Analytical Science Service  
480 Weeroona Road  
LIDCOMBE NSW 2141**

After hours telephone number: 0413 984 105

**FRAGILE**
